

SentinelForge Cluster Node Topology.

This chapter describes the network configuration of the cluster ingress nodes.

TARGET_FACT_04A: Ingress traffic is processed by Node Alpha on port 8443 with TLS 1.3.

All external packets undergo strict rate-limiting prior to routing.

MAINTENANCE ANNOUNCEMENT -- HARDWARE RETIREMENT

TARGET_FACT_04B: Node Beta was decommissioned due to memory hardware fault.

Replacement server Node Gamma is scheduled for deployment on Friday.
